

ALBUKHARI EXPORTS

Egyptian Herbs, Botanicals, Spices & Seeds

Sourcing Egyptian botanical ingredients for global B2B markets. We coordinate sourcing, specification-driven processing, testing, and export logistics to meet buyer requirements in the European and United States markets.

About Us

Albukhari Exports is an Egyptian sourcing and export company specialising in dried herbs, botanical ingredients, spices and seeds for international B2B buyers. We coordinate the supply chain from agricultural sourcing and product selection through processing, packing, quality testing, documentation and export preparation, arranged according to each buyer's requirements.

Our focus is on building transparent, specification-driven supply programmes for customers targeting the European Union and United States markets.

Sourcing

Selected Egyptian suppliers and growers

Processing Coordination

Arranged to buyer specifications

Quality, Testing & Compliance

Quality control is coordinated with independent, accredited testing laboratories and third-party inspection services as required by buyer specifications and destination market regulations.

- Pre-shipment inspection coordination
- Laboratory testing arranged through accredited third-party labs
- Sampling and lot traceability managed per shipment
- Custom specification testing on request (analytical, contaminants, residue screening,

Independent Quality Verification

QCAP — Egypt

Central Laboratory for Analysis of Pesticide Residues and Heavy Metals in Food.

Testing can be arranged through QCAP according to the required analytical scope.

- Pesticide residues
- Heavy metals
- Mycotoxins / Aflatoxins
- Microbiological testing
- Relevant food-quality parameters

Eurofins Dr. Specht International GmbH — Hamburg, Germany

For European-focused analytical requirements, laboratory testing can be arranged through Eurofins Dr. Specht International GmbH.

- Multi-residue pesticide screening
- Specific pesticide parameters
- Residues and contaminants
- Additional herb and spice analyses according to buyer requirements

Independent Third-Party Inspection

Independent inspection can be arranged on buyer request through SGS Egypt or another mutually agreed inspection company.

- Pre-shipment inspection
- Sampling
- Quality and quantity inspection
- Packing verification
- Label verification
- Loading supervision

Note: Testing and inspection scope is agreed according to product, buyer specification and destination-market requirements.
